Dear Ms. Nease:

We have completed our review of the response of Minnesota Public Radio ("MPR"), to the April 19, 2010 random audit letter sent to it in accordance with the provisions of Section 73.2080(f)(4) of the Commission's Equal Employment Opportunity (EEO) Rules. As a result of our review, we find no further action is required.

In accordance with Section 73.3526(e)(10) for commercial stations or Section 73.3527(e)(11) for noncommercial stations, MPR must place copies of this letter, our April 19, 2010 audit letter, and its response in the public inspection file of each station. MPR must maintain these materials in the files until grant, by final order, of the next renewal application of its license for the station to which the file relates.

Should you have questions regarding this matter, please contact the EEO Staff at (202)418-1450. Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink that reads "Lewis C. Pulley".
